

Cell Cycle and Cell Division
Educational Services Private Limited
NEET, JEE (Mains/Advanced)
अभ्यास ही सबसे बड़ा गुरु है।

1. Leptotene (Duplicated chromosomes start to condense)
2. Zygotene (Synapsis begins)
3. Pachytene (Synapsis complete, Crossing over occurs)
4. Diplotene (Synaptonemal complex starts disappearing, Bchiasma visible)
5. Diakinesis (Bivalent ready for metaphase)

Overview of meiosis
